

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

The prior art of record taken either singly or in combination fails to anticipate or fairly suggest the limitations which the Applicants claim in claims 23-44 in a manner which would warrant a rejection under 35 U.S.C. § 102 or 35 U.S.C. § 103.

There was no prior art found by the examiner that suggested modification or combination with the cited prior art so as to satisfy the combination of the present independent claim 23; especially, the prior art does not disclose a control part and a power circuit controlled by the control part and including switching elements, wherein the control part is spatially separate from the power circuit.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
